Sounds good. I'm assuming we need to keep our slides—not including the first & last one—down to 12 or 13, to allow a few minutes for questions. I've got it at 12 right now, but the one with us on the beach I'm assuming is one for you (or a placeholder for you).

Sorry Heather, I was on the phone the entire day except for one hour. I agree about the bulkhead slide and I will make one to fit in after the slide with us all on the beach. I have about 3-5 minutes of things to say about all of the ecol. Implications. Will we have time for ET questions in that 30 minutes? Let's talk on Monday when you are working again. I plan to telework in the morning, then take the afternoon off, but I will be ready by then. Thanks!

Hey, Susan.

Hopefully you got my VoiceMail...? I'm assuming the slide where we're all standing on the beach would now be yours. It's *totally* your baby, but, if you're planning to use that one, I was wondering about adding something like a bulkhead just above MHHW & then showing the little fish being forced out into deeper water, where they're eaten by a big fish. What do you think?

LOVE the first one and the second one is good too. Have no idea how indepth we are to go, but I would like to add one or two slides on ecological implications, if that is okay?

And here's the other one; it was a consolidation of the OERA one, to give to CEQ. We could add a couple of slides (back) to it.

Heather, Could I see the presentations? I would hate to reinvent the wheel.

Hey, guys.

Just bugging you again about whether you want to revise the existing HTL presentations or do your own slides (see below). I may be out tomorrow through Friday, so....

Thanks,

H

Great; thanks!

I'm assuming what makes sense is for me to cover the tidal elevation data, Susan the biological implications, & Endre the legal implications & vulnerabilities. What do you think?

I've already got a couple different presentations, one of which could have a couple of slides added to go up to 30 minutes, while the other would need paring of a couple. Do you guys want to start with those or do your own?

I have our staff meeting at that time, but I'm sure this topic and audience is important enough to miss part of that meeting. Let me know when you want to talk about it.

Susan

Good morning. A presentation on HTL is on the ET's agenda for next Tuesday, from 10:45 to 11:15. Are you interested in co-presenting & if so, are you available then?

They gave us 30 minutes. Will you be able to present. We would have to coordinate with Peter/Susan/Endre. Maybe a tag team approach with you, Susan, and Endre.

Thanks
